

Introduction to Data Science

IDS:

- » is a UCOP-approved “c” course
- » satisfies a 4th-year math requirement and *validates* Algebra II
- » teaches students to apply mathematical and statistical thinking to real-world problems
- » teaches students to code and to compute with data using the R programming language
- » is currently taught at over 20 high schools in LAUSD

SAVE THE DATE

UCLA Center X invites *District Curriculum & Instruction Leaders for High School* to attend a special luncheon to learn more about an exciting new mathematics course: **Introduction to Data Science (IDS)**.

WHEN: November 29, 2016 12pm - 2pm

LOCATION: UCLA Faculty Club

RSVP by November 1, 2016
at: <http://tinyurl.com/IDS-luncheon>

Space is limited. Sign up early to ensure your reservation.

QUESTIONS?

Contact Mobilize Project Director, LeeAnn Trusela
at: help@mobilizingcs.org

“The IDS training has helped me to become a better teacher. I learned different teaching strategies that I was able to use for IDS as well as for my Algebra 2 classes.” - Arlene Pascua, Narbonne Senior High
